2016-2017 Guthrie Homework Policy

Many classes at The Guthrie Center do not assign additional work to be completed outside of school due to the nature of our project-based learning and the amount of time our students have to work in class.

However they may require assignments to be done from time to time. In those cases, The Guthrie Center follows the District Policy EIB Local and expects the students to complete the assignment within the time given by the teacher. All homework assignments are graded.

If the homework is not returned by the due date, it will be accepted late with the following penalties:

- 10 points lost for the first day late
- 20 points lost for the second day late
- 30 points lost for the third day late.

Homework will not be accepted after that time and a zero will be recorded as the grade. There with no provision to make up the work.

For additional information, please contact your teacher or an administrator for assistance.
